☎ +92 320 0775896 📍 Lahore, Pakistan

Professional Summary

Frontend Engineer with 4 years of experience developing scalable web applications and modern frontend systems using React, Next.js, and TypeScript. Proven experience building performant user interfaces, managing complex application state, and contributing to frontend architecture decisions in collaborative product environments. Experienced in AI-assisted development workflows that accelerate development, improve productivity, and maintain high engineering standards.

Education

COMSATS University Islamabad

Sep. 2018 - May 2022

Bachelor of Science in Computer Science

Technical Skills

Frontend Engineering: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, TanStack Query

UI & Styling: Tailwind CSS, Material UI, Shadcn UI, Bootstrap, Responsive Design

Testing & Quality: Jest, Vitest, React Testing Library, Playwright, ESLint, Prettier

Architecture & Performance: SSR, CSR, SSG, REST APIs, State Management, Performance Optimization, Code Splitting, Lazy Loading, Accessibility (WCAG)

DevOps & Deployment: Git, GitHub, GitLab, CI/CD Pipelines, GitHub Actions, Vercel, Netlify, Docker

AI-Assisted Development: Cursor, Claude Code, Codex, AI-assisted debugging and development workflows

Collaboration & Productivity: Postman, Jira, Trello, ClickUp, Agile Development, VS Code

Experience

Rigel AI

Feb. 2025 - Present

Frontend Engineer

Lahore, Pakistan

- Led frontend development of React, Next.js, and TypeScript web applications from architecture to deployment.
- Built scalable, reusable frontend systems with optimized performance and efficient state management.
- Collaborated with product, backend, and design teams, leveraging AI tools to accelerate delivery.

Createex

Nov. 2023 - Feb. 2025

React.js Developer

Lahore, Pakistan

- Developed and maintained scalable React-based CMS and business applications for thousands of daily users.
- Built reusable UI components and integrated REST APIs for maintainable frontend architecture.
- Collaborated with designers and backend engineers to independently deliver production-ready features.

Enigmatix

Sep. 2022 - Oct. 2023

Junior Frontend Developer

Bahawalpur, Pakistan

- Completed a frontend internship building responsive features with JavaScript, React.js, and React Native.
- Collaborated with senior developers to implement UI components and resolve cross-browser issues.
- Gained hands-on experience with Git collaboration, debugging, and feature delivery workflows.

Projects

Shay Better Coaching | *Next.js, TypeScript, Redux Toolkit, PostgreSQL, Docker*

- Built a production-ready coaching SaaS platform with multi-role authentication and payments.
- Developed scalable frontend architecture with advanced state management and dynamic validations.
- Implemented scheduling and large-scale form management for complex multi-step workflows.

Service Estimate | *Next.js, TypeScript, PostgreSQL, React Flow*

- Developed a workflow-driven plumbing service platform with CMS and dynamic estimate generation.
- Implemented complex frontend logic using React Flow and reusable, scalable form systems.
- Built booking systems and multi-step customer onboarding flows with API integrations.

Azam Electronics | *Next.js, Tailwind CSS, Supabase*

- Built a CMS platform managing German language learning workflows and test administration.
- Implemented dynamic test management systems with CRUD operations and admin interfaces.
- Focused on maintainable, reusable components for responsive educational user experiences.
